$141,799 New Office Plant Set for Mills

Permit for Airport's New Building Issued Here By County

The largest permit issued by the county building department in its more than two years of existence Tuesday gave San Francisco a "go ahead" signal on its new $141,799 administration building for Mills Field.

Securing of the permit for the structure, which will stand on the former site of the present building which has just been moved, brought $111 in fees to Inspector William Watson Jr.'s bureau.

As a result of issuance of the permit, building totals for July jumped to $233,695, and to $1,188,116 for 1936 to date. Already July is the largest month ever recorded in the unincorporated area of the county, the previous high month being May, with $185,607 in permits.

Contractors for the new airport structure, which will be started immediately, are Reed and Reed of San Francisco.

So much building has been undertaken in San Mateo county that Watson's department cleared $2,303.86 during the past fiscal year, according to his annual report to the supervisors. A total of $10,671 in fees was collected, with expenses totaling $8,367.14. Total construction undertaken in that time was $1,573,431.

Ward's Spent Eleven Million On West Coast

Montgomery Ward spent approximately $11,000,000 in the three West coast states, Oregon, Washington and California, last year for merchandise purchases alone, it was announced here today by Thomas Joaquin, Ward store manager, who has just received the information from the companys Chicago offices.

"We are proud," said Joaquin, "to be able to show to what an extent Montgomery Ward is a West coast institution. A company selling a wide variety of merchandise over a wide area must also make purchases over a comparable area and a large amount of these purchases center on the West coast."

Joaquin pointed out that the merchandise thus purchased is sold by the company both in its 500 retail stores located in 47 states and through the nine mail order houses. He also stated that the huge sums of money spent by the company on the coast helped to keep thousands of local persons employed in various manufacturing enterprises, in addition to the 9000 persons employed directly by Montgomery Ward in the three coast states.

Orchestra Heard On Chesterfield Hour Is Biggest

A new and different dance program is being broadcast over the Columbia network these summer weeks, sponsored by Chesterfield Cigarettes with a huge cast of 63 musicians and singers led by the versatile Andre Kostelanetz.

For 30 fast-moving minutes every Wednesday and Friday night a turn of the dial will take you through the paces of swing dances, waltzes, rhumbas, tangos —every kind of dance tune that's popular, interspersed with clever and original vocal arrangements.

The fact alone that more than half a hundred people take part in the Chesterfield productions makes a bewildered layman wonder how such a large group can be handled so smoothly before the sensitive "mikes.'

The Kostelanetz orchestra is the largest dance orchestra broadcasting today—45 musicians, many of whom have led their own orchestras or played in leading orchestras here and abroad.

In addition there are the singers . . . the romantic young baritone, Ray Heatherton, the popular harmonizer, Kay Thompson, and a chorus of rhythm makers composed of 12 girls and three boys. These various groups pack a world of entertainment into a half hour and do it in a way that really "satisfies."

Fire Threatens Supply of Water Of Hillsborough

Four fires, one of which endangered the Hillsborough water supply, kept county firemen busy over the week-end.

Four acres were burned off by the blaze back of Hillsborough, which nearly reached the five 50,000-gallon wooden tanks supplying the city, before it was brought under control by the firemen. More than 600 gallons of water were poured on the flames in an hour's struggle.

County Board Wins Pierhead Setting Delay

Witt Sees Throttling Of Public Projects If Plea Granted

Following considerable discussion during which the San Mateo County Harbor Board was roundly scored for apparently going over the heads of the supervisors, the board of supervisors Monday sought and secured postponement for two weeks of a San Francisco hearing which had been called for Wednesday to consider establishment of harbor lines on San Francisco bay near South San Francisco.

Postponement was granted, after appeals had been made in three long-distance telephone calls by Acting Manager U. S. Marshall, by Maj. E. S. J. Ervine, recorder of the corps of engineers of the war department. He had notified the board of the hearing, which, he said, had been requested by the harbor district.

Reading of the notice at the board meeting, supervisors said, gave them the first knowledge they had had of the hearing. With it only two days away, and knowing that in the past the harbor commissioners had endeavored to have the lines set at the edge of private property so that the public would be barred from use of the bay frontage, the supervisors, led by Albert Witt Jr., demanded more time to learn what was being asked in the bulkhead and pierhead lines on this occasion.

"This is one of the most vital matters to affect San Mateo county," the Daly City representative asserted.

OF VITAL IMPORTANCE

"The setting of these lines will control the future industrial activity of the county. I understand the lines are to be established on private property. I think they should be set beyond the lines of the individual property so that industry could be brought here.

"If we hope to become anything else than the bedroom of San Francisco, we must have the lines set beyond the private property.

"If this goes through, it will throttle the development of the county for ever and amen."

Applause from the crowded supervisor chambers greeted his remarks, and Witt moved for an appeal to "proper authorities" to have the hearing postponed so the county might prepare a case in opposition, if it is learned definitely that the harbor board has asked to have the lines established at the junction of private and public property, instead of leaving some land in between for public development.

Reynolds, Wife Quit Hospital

Wealthy Couple Back In S. F. Apartment After Experience

With finis written—authorities hope—to the police chapter of the story of the honeymooners who were found unconscious, Arthur Reynolds Jr. and his bride of a month Tuesday were again in their San Francisco apartment, ostensibly planning to resume the life of normal human beings.

The pair left San Francisco hospitals late Monday, both apparently recovered from an overdose of a powerful sedative.

Release for Reynolds was signed at Central Emergency Hospital by Mr. and Mrs. Jack Josias, managers of the apartment house at 1300 Golden Gate avenue.

Shortly afterwards they obtained release of Mrs. Reynolds, who is the former wife of Carl A. Livingston, San Francisco department store executive. Under terms of a divorce decree granted in April by Judge A. R. Cotton in the local superior court, Livingston paid his ex-wife $300 a month until her remarriage a year ago in Reno. The merchant has custody of the couple's two children, Carl Jr., 14, and Barmon, 9.

Reynolds was released over protests of hospital authorities, who urged him to remain at the institution until fully recovered from a second overdose of the drug, coupled with whiskey, taken Saturday.

Attorneys for Mrs. Reynolds' family were said to have attempted to get her to sign a warrant for her own commitment to a psychopathic ward, but she declined.

Reynolds' parents, Mr. and Mrs. Arthur Reynolds Sr., a wealthy Hillsborough couple, are now traveling in the Orient. Mrs. Reynolds' parents are also well to do.

Crossing Betterment Requested in N.F.O.

Improvement of approaches and the railroad crossing on Fifth avenue at the Dumbarton cutoff of the Southern Pacific in North Fair Oaks was requested of the board of supervisors Monday in petition signed by 40 residents of the district.

"This should be done as a safety measure as there is not room for two cars to pass and the grade on approaches is quite abrupt," the petition declared.

JONES WINS NEW DELAY

Samuel J. Jones, indicted Bayshore city attorney, this afternoon won another continuance of his case—this time to July 27—when he appeared before Superior Judge McNutt to have the matter set for trial.

Bonus Route Leads to Jail

50-Day Term Started By Veteran Who Spent Cash

Because his bonus money was enough only to buy him a new car, Sigward P. Pederson, 46-year-old Healdsburg painter, Tuesday was beginning a 50-day term in the county jail, unable to raise a $100 fine.

Pederson, who was arrested in San Francisco early Sunday an hour after his car crashed into the machine of Edward L. Griffin of Maryland on the Bayshore just north of Redwood City, pleaded guilty to hit-run charges when he appeared before Justice Hugh Mullin Jr. in San Mateo late Monday. He was given the alternative sentence, but chose the jail term.

After his arrest, Pederson told officers he had just bought a new car with his bonus money and had come to San Francisco for a short vacation. He drove to Palo Alto late Saturday, drank in a roadside tavern, and started back to the bay city. On the way he swerved to the left side of the road, striking the Griffin car, knocking it from the highway. Miss Margaret Hargest, 17, of Baltimore, was slightly injured.

Pederson was traced by a broken headlight, lens of which fell at the scene of the accident as he sped on.

Retired Contractor Dies at S. M. Home

SAN MATEO, July 13—Martin Creaven, 85, resident of San Mateo for 56 years, died last night at his home here. He had been ill a short time.

He is survived by two daughters and a son, all of them residents of San Mateo. They are Mrs. Margaret Darcy, Mrs. Mary E. Jermeland and Robert M. Creaven. Mr. Creaven's wife, Ellen, preceded him in death four years ago. He was a retired contractor.

Funeral services will be held Wednesday morning at 8:30 at the Sneider mortuary, and will be followed by a requiem mass at the St. Matthew's Church. Burial will be in St. John's Cemetery.

'TALE OF TWO CITIES' COMING

Here is a scene from "A Tale of Two Cities," Charles Dickens' immortal novel, starring Ronald Colman and Elizabeth Allan. This picture is regarded as outstanding by critics. It comes to the Redwood Theatre Sunday and Monday. On the same program is John Barrymore and Maureen O'Sullivan in "The Voice of Bugle Ann."

Shaw Reveals Harbor Plans

South San Francisco May Develop Port To Serve City

Port development in South San Francisco to follow the lead set by Redwood City is back of the desire to have harbor lines set at that point, Percy J. Shaw, South San Francisco land developer, revealed Wednesday.

The development would be either of a private or municipal nature, and not a county undertaking, Shaw revealed.

Shaw, answering the opposition of the board of supervisors to the establishment of the harbor lines, said the proposed development centers entirely within the city limits of South San Francisco, over which the county supervisors have no control.

COUNTY LACKS INTEREST

Shaw made it clear in his statement that the harbor commission as such is convinced that port developments must be undertaken privately or by municipal enterprise as the county as a whole is not "harbor conscious."

Because of this belief, Shaw and S. A. Keyston, San Mateo, secretary of the commission, do not plan to seek re-election to the county harbor commission, it is understood. Their terms soon expire.

Shaw pointed out that the harbor commission, "which was the only authorized agency which might have jurisdiction over the waterfront facilities within the municipality of Redwood City, when asked, relinquished that right, granting the city a free hand in the development of its own facilities."

DEVELOPMENT NEEDED

"Industrial development of the county is a paramount need at this time," Shaw said in the prepared statement. "Redwood City as a municipality is taking the initiative in this direction. It should be encouraged and commended for the spirit and confidence shown in the development of the community.

"Her sister community, South San Francisco," he said, "although widely separated through the intervening shorelands of the county but representing the industrial backbone of the county, has been given encouragement by the action of Redwood City in proceeding with the development of its shore facilities and should be supported in fostering to its fullest extent its industrial potentialities."

REVERTS TO STATE

Henry Beeger, Redwood City member of the commission, took a similar view to that held by Chairman Shaw, in declaring that the South San Francisco development should not be hindered.

"Neither the board of supervisors nor the county planning commission has a thing to do about the South San Francisco proposition, nor with the activities of the harbor commission, elected by the people and independent of these other bodies," said Beeger.

"South San Francisco is seeking equal access with private owners to the harbor facilities in its vicinity."

He declared that as far as the intervening property sought by the county along the bay front is concerned, "it would revert to the state, and not to the county."

"We would never get private industries to settle in San Mateo county if they had to pay tolls to the state to cross state-owned property either to reach deep water or loading docks," said the commissioner.

Beeger said the development at South San Francisco should not affect the Redwood City harbor plans.

The harbor line hearing has been set for July 29. It was set at the request of the county harbor commission.

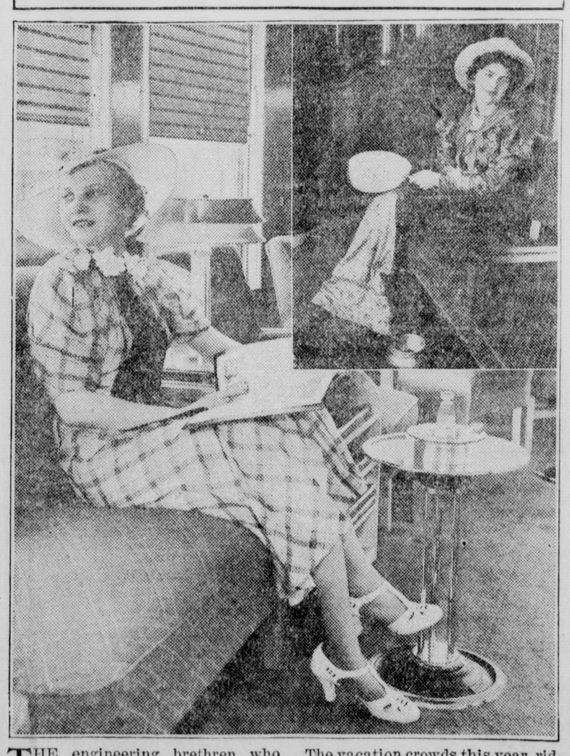
United Reports 3670 Travelers Flown in June

Air transportation out of San Francisco is showing steady increases, S. A. Stimpson, district traffic manager of United Air Lines, reported today, in announcing more passengers were flown out of the bay area in June than in any previous month in the company's history.

A total of 3,670 passengers were transported from San Francisco and Oakland in June, superceding the 3389 carried in August of last year, the previous record month. In June, 1935, the passenger list included 2901 persons.

In anticipation of further increases United executives were conferring today relative to new schedules to be placed into effect within the next 10 days.

AIR-COOLED TRAINS OF WEST CHANGE MILADY'S TRAVELROBE



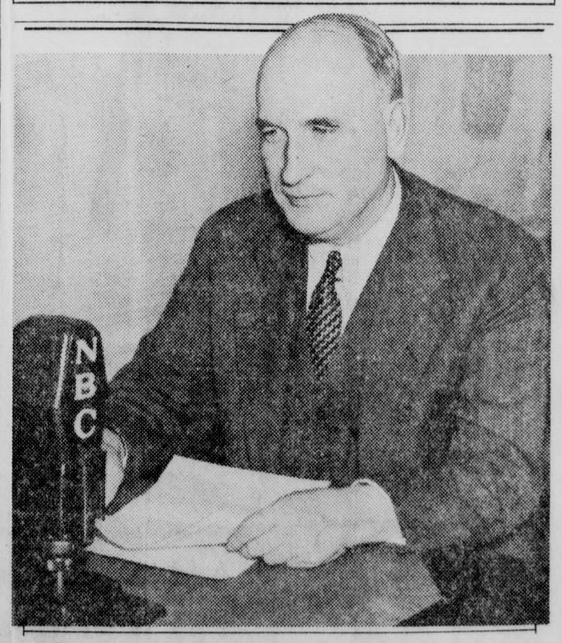
THE engineering brethren who developed air-conditioning are also the fathers of a revolution in travel fashions, according to Harry G. Taylor, Chairman of the Western Association of Railway Executives. Thanks to the cleanliness and coolness of air-conditioned Western trains, fashion now decrees brilliant color and soft feminine frills as part of milady's "Travelrobe" this summer.

Pictured above is a modern miss fashionably yet comfortably attired on her Western rail trip. In the inset, yesterday's rail-going lass is seen fighting off cinders and perspiration as she longs for her journey's end.

The vacation crowds this year, riding over the rails to mountains, woods and lakes throughout the West, give the impression of a fashionable summer resort on wheels. Bright flowered prints, cool dark chiffons and summer suits in the newest fabrics are exceptionally popular.

Clean, washed air and sealed windows that keep out dust and soot mean that a white glove can stay white from Chicago to California. Regulated temperature means that crisp cottons and summery fabrics won't curl up and wilt. The result? A revolution in travel fashions.

'Must Stop Cars Quickly to Cut Death Toll'



THAT half of the 36,000 persons who were killed in motor traffic accidents last year would have escaped death if they had been able to stop their cars in time, was declared by William O'Neil, president of the General Tire and Rubber Company, when interviewed by John B. Kennedy, noted news commentator of the National Broadcasting Company, in a radio broadcast over a coast-to-coast NBC network recently. President O'Neil (shown above at the NBC studios in Radio City, New York) declared tires must stop motor cars, after brakes have stopped the wheels, and told what modern tire engineers have done to perfect tire treads that wrinkle and stop speeding cars in their tracks on wet pavements.

Residents to Finance Paving of Avenue

With 22 property owners bearing the cost, Orchard avenue, off Woodside road, will soon be given the same asphaltic oil wearing surface as was recently applied to Hudson avenue.

Work to pave the road over a 20-foot wide, 1660-foot long stretch is expected to begin next week, according to Acting City Manager Charles Dimmitt. Cost of the work will be $995.

Dimmitt said that the Hudson avenue paving had caused residents on several other streets besides Orchard avenue to consider banding together to finance further paving.

ROSSI GIVEN NEW DUTIES IN S. F. BANK

17 Years With R. C. Branch Brings Promotion

Amerigo Rossi, assistant cashier of the Redwood City branch of the Bank of America for the past 17 years, has been transferred to the San Francisco headquarters of the bank and will be attached to the Italian department, it was announced today.

Rossi, who has been with the Bank of America since 1918, began his banking career in 1913 with the Italian-American Bank of San Francisco, having gone to that city from Denver, where he had served as secretary in the Italian consulate.

He joined the Bank of America organization at San Mateo on July 22, 1918. In September, 1919, he was transferred to the institution's Redwood City branch as assistant cashier.

Throughout his business career, Rossi has been active in Italian-American affairs of the peninsula. For 11 years he has been a member of the Italian-Catholic Federation and served as first president of the Redwood City branch of that state-wide organization.

In 1929 he was elected grand president and served in that office for six years. He is now grand treasurer.

Rossi is also an active member of the Italian-American Progressive Club and is a member of its board of directors. He is also a charter member of the Redwood City Kiwanis Club and a member of the local chamber of commerce and the Owls lodge.

'91st Division' Of Veterans Set La Honda Picnic

The San Mateo county hills will ring with the famed cry "Powder River" Sunday, July 19, when the boys of the "Wild West 91st Division" with their families and friends from all Northern California hold their annual family barbecue picnic among the redwoods of La Honda Park, La Honda.

Year after year this event attracts larger and larger turnouts as the word passes around regarding the generous barbecue of individual steaks under the supervision of Chief of Police Louis Belloni, 91st leader of South San Francisco, and his assistant, Otto Bissett, fireman of that city.

Though this barbecue alone is worth coming miles for, the program also is an elaborate one; dancing to Jerry Richards Super Dance Orchestra, games for young and old with many fine prizes, a bathing beauty contest, with all invited to participate, a good ball game between the crack soft ball teams of the division and C. C. Thomas Post, American Legion, and many other entertainments.

John Cullen of Redwood City is assisting with the plans.

HOULE WILL ADMITTED

AYLETT R. COTTON
Judge, Superior Court
Department No. 2

Politics is something with which we should all concern ourselves, but with which most of us don't, because of the shadow cast over it by the improper actions of some officials entrusted with high places in the administration of public affairs, according to Col. Charles N. Kirkbride, outstanding county attorney and civic leader of San Mateo. "How refreshing it is then," Col. Kirkbride adds, "to find a man like Superior Judge Aylett R. Cotton in office, and how interesting and worthwhile it becomes to do all one can to continue such a man in such an important post." Friends of Judge Cotton are predicting that he will poll a new record high vote at the August 25 election.

1-Man Trolley Hearings Set

August 1st New Date For Presenting Plea To Reopen Case

San Francisco's petition, in which San Mateo county will join as intervenor, for a rehearing in the one-man car case will be heard in the U. S. District Court on August 1, according to an announcement made in San Francisco by Federal Judge Harold Louderback.

The date was set despite objections of the Market Street Railways that the district judge had lost jurisdiction in the case as the entire proceedings were before the Circuit Court of Appeals.

San Francisco City Attorney O'Toole and Dist. Atty. Gilbert Ferrell of San Mateo county are preparing to file a mass of affidavits.

The testimony will recite numerous instances of delays, traffic congestion, collisions with other vehicles and accidents to passengers resulting from the "economy" operation.
